

Intelligraphic Solutions is a state-of-the-art provider of permanent industrial identification and marking solutions, highly specialized to individualize, identify and enhance the look of industrial parts and products. Our technical expertise includes laser engraving, laser marking, laser etching, sublimation, label printing and line bending, all offered with speed and accuracy.

### Laser Etching

Custom laser etched products offer a higher quality finish, perfect for intricate designs on a variety of materials.

### Dye Sublimation

The application of full-color, photo quality images on a variety of materials.

### Label Printing

Quick-turn, reliable creation of professionally designed industrial labels perfect for tracking and branding.

### Engraving

Traditional engraving is perfect for reverse-engraved plastic overlays, color-filled ring tags and custom cut hazardous plastics.

### Thermoplastic Line Bending

Line bending allows for the production of bent display stands, safety guards and custom product accessories to be fabricated from flat material.

### Screen Printing

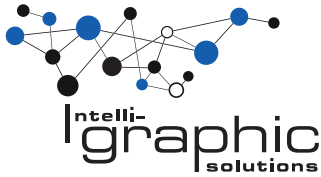

Perfect for colorful, long-lasting text additions to enclosures and more.
